- 7.3.17 - Years 4, 5 and 6 orienteering day

Inspire, Believe, Respect, Achieve Together We Shine

Congratulations this week to:
Edward - for a fabulous 'Gingerbread Man' story, using great punctuation, adjectives and humour; Elody - for great effort in writing! Jack C - for excellent progress in writing, you can now generate ideas for your sentences and take on the role of the dentist and shopkeeper in 'Charlie and the Chocolate Factory.' Georgina - for consistently working hard and getting the results you deserve; Anieke - for showing real maturity and emotion in your writing about a disfigured orphaned child; Eloise - for putting in lots of effort in maths, you go for it!

This week Jake, Lucie, Jack C, Thomas, Isabella and Herbie have presented their work to a very high standard. CCWC nominated Lucy, Poppy, Ruby, Faith, Will, Georgina, Jack F, Daniel, Helena, Lorcan and Evie for showing our value of **respect** this week. Mrs Branton, our Governor for Growth Mindsets, found this quote to inspire us all; 'The only bad mistake is to be afraid to make a mistake.'

Another Recycling Challenge!

Class 1 have set themselves a challenge, lead by the uber ambitious Mrs Hewson! They need **400** four pint plastic milk bottles to build an igloo...an idea sparked by our brilliant 'Dream Team' Reception children. Can you picture it in your mind? They can and have the plans to prove it!!

Open Book Evening

We had lots of families here on Tuesday after school sharing English and Maths books with their children. Ellie liked sharing her books with her Dad. 'I liked it when my Dad said I was really good at maths, he said he was good at maths when he was little and I am too and I love maths. I liked showing him my English book too because he said my writing was really neat and he said my reading comprehension was super too.' Phoebe liked it when her mum said, 'Your work is really good, your maths is excellent and your English work too.'

How food smart are you?

Lorcan and Luca got so excited learning about chocolate in Class 2 they set up their own science experiment testing sugar! They produced diagrams showing the sugar content of food in their kitchens. Luca said, 'Bagels have 1 sugar cube per bagel and the daily allowance for 7-10 year olds is 6 sugar cubes. Ketchup is the worst with 77 cubes of sugar in a big bottle.' Lorcan said, 'In custard creams there is 1 sugar cube in one biscuit. Too much sugar can cause weight gain, heart disease and tooth decay. If you look at the barcode on food, you can scan it and it will (mostly) tell you the number of sugar cubes in it.' The app is called Be Food Smart and it is free!
