E-safety Workshop

Thank you to those who attended:

"The e-safety talk was very informative and stressed the importance of working with our children to understand what they are doing online and to reduce the risks. We learnt that although we cannot protect them completely we can educate them to be responsible and safe users." Class 1 parent

"The internet safety talk was really informative and a must attend for all parents no matter the age of your child. It highlighted the importance of establishing ground rules at an early age. I have learned to never make assumptions about the quality of the safety settings on devices and have taken away really useful tools. I would recommend it." Class 2 parent
