

Teachers Weekly Update

Friday 2nd October 2026

Next week...

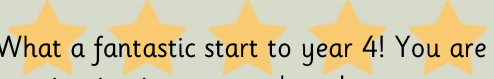

We have a science experiment planned for Thursday afternoon – it's time for the poo experiment! Where we will be walking through and physically taking our food through the digestive system! Children will need to be prepared to get mucky!

We will also be starting our new history topic: Anglo-Saxons and their invasion of Britain!

Our new science topic will go onto electricity and circuits. We'll be building our own circuits throughout the unit and investigating voltages and conductivity.

Don't forget we have a roll up and read on Friday instead of church!

Stars of the week

Rose –  What a fantastic start to year 4! You are showing such determination in your work and your presentation is already incredible!

Nola – The independent effort you are putting into your learning is inspirational. Your attitude has been incredible – every, single lesson!

Wilf – I am loving your thirst for knowledge and how there doesn't seem to be a limit or a cap to what we can learn or find out about!

Recommended Read

This is the book that we investigated in our book club this afternoon! We took a random letter and random number and found a new author to look into!

The first book in The Trapdoor Mysteries, a series about Tally, a code-breaking, animal-loving servant girl and her best friend, a squirrel named Squill, who solve mysteries with the help of a secret library...
